- Compact and sturdy design of instrument
- Can be mounted easily anywhere near the entrance
- Can be interfaced with EM Lock

Specification : >>>

- Verification option : RFID Card, RFID Card+Pin
- Verification time : < 2S.
- Registration time : < 3S.
- Card Capacity : 2000/4000/6000*
- Timestamp Data : 100000*
- Communication interface : RS232/RS485/TCP-IP Optional
- Communication speed : 10/100M, Auto crossing.
- Card format : 125 KHz
- Reading range : upto 4cm.
- Keypad : 10 number key+6 function key
- Display : 16 x 2 LCD
- Operating temperature : -20°C to 70°C
- Power : 12V, 2A
- Weight : 330 gm
- Dimensions : (9.3 x 15.1 x 2.7 cms)

* Storage capacity extendable
