Features

mVender includes application platform integrated with SMSC(short message service center), a mobile device which can be installed with a vending machine.

Benefits

► 24 hours Service / Selling

The products can be delivered to the customer round the clock service. Mobile Vending machine are always on the job, displaying and offering your products for sale 24 hours a day, 365 days a year.

► Ease of Payment

Each vending machine is equipped with a GSM module and firmware to handle messages forwarded from the Mobile Vending Server.

Machine has a sign that clearly indicates that cashless operation is available and gives a unique number that mobile phone users may dial.

► Business with no employees

By filling the machines yourself no need of employee wages to pay. The customer collects product by sending SMS to a fixed service number. Say for eg. 56677 for vending machine like COFFEE 19234, where 19234 is vending machine number.

► Counters of different company

Man less installation gives a good option for variety of products like Hot and Cold drinks, Ice-cream, Chocolate, Toys, etc. Vendors can have various company owned counters.

► Services Charged

The service will be charged on SMS premium charges as per the service provider.
